This is an Amendment and Response to the above-identified patent application in response to a non-Final Office Action mailed February 24, 2008.

A two-month petition for an extension of time to respond to this Office Action accompanies this Amendment and Response. The reason for the request for a time extension was to permit the Applicants an opportunity to perform certain experimental tests, which are presented in the accompanying Declaration Under 37 CFR 1.132.
